# Appendix IV: OSHA's Forms for Recording Work-Related Injuries and Illnesses

# An Overview: **Recording Work-Related Injuries and Illnesses**

The Log of Work-Related Injuries and Illnesses (Form 500) is used to classify work-related injuries and illnesses and to note the extent and severity of each case. When an incident occurs, use the Log to record specific details about what happened and how it happened. The Summary — a separate form (Form 500A) — shows the totals for the year in each category. At the end of the year, post the Summary in a visible location to that your employees are aware of the injuries and illnesses occurring in their workplace.

Employers must keep a Log for each establishment or site. If you have more than one establishment, you must keep a separate Log and Summary for each physical location that is expected to be in operation for one year or longer.

is expected to be in operation for one year or longer.

Note that your employees have the right to review your injury and illness records. For more information, see 39 Code of Federal Regulations Part 1904-35, Engleyer Involvement.

Cases Insted on the Leg of 1904-16stade Applies and Illness are non recessarily eligible for worker! compensation or other insurance benefits. Listing case to mite Leg decessors mean that the employer or worker was at fault or that an OSIA standard was wishest.

An injury or illness is considered work-related if an event or exposure in the work environment caused or contributed to the condition or significantly aggravated a preexisting condition. Work-relatedness is

presumed for injuries and illnesses resulting from events or exposures occurring in the workplace, unless an exception specifically applies. See 29 CFR Part 1904-5(b)(2) for the exceptions. The work environment includes the establishment and other locations where one or more employees are working or are present as a condition of their employment. See 29 CFR Part 1904-5(b)(1). present as a concursor. See 29 CFR Part 1904.5(b)(1).

## Which work-related injuries and illnesses should you record?

Illnesses should you record?

Record those work-related injuries and illnesses that result in:

▼ death,
▼ dost,
▼ days away from work.
▼ medical treatment beyond first aid.
You must also record work-related injuries and illnesses that are significant (as defined below) or meet any of the additional criteria listed below.
You must record any significant work-related injury or illness that is diagnosed by a physician or other locanesch health care professional. You must record any work-related case involving cancer, chronic irreversible disease, a fractured or cracked bone, or a punctured eardrum. See 29 CFR 1904.7.

### What are the additional criteria?

- Von must record the following conditions when they are work-related:

  ▼ any needlestick injury or cut from a sharp object that is contaminated with another person's blood or other potentially infectious materials;
- infectious material;

  y any case requiring an employee to be
  medically removed under the requirements
  of an OSHA health standard;

  v tuberculouis infection as evidenced by a
  positive skin test or diagnosis by a physician
  or other increased health care professional
  after exposure to a known case of active
  tuberculouis.
- tubervulosis.

  \*\*Y an employee's hearing test (audiogram) reveals 1) that the employee has experienced a Standard Threshold Shift (STS) in hearing in one or both cars (averaged at 2000, 5000, and 4000 OHz and 2) the employee's tool hearing level is 25 cetched; (4)(8) or more above audiometric zero; (also veraged at 2006, 3000), and 4000 H<sub>2</sub>) in the same car(i) as the STS.

#### What is medical treatment?

Medical treatment includes managing and caring for a patient for the purpose of combating disease or disorder. The following are not considered medical treatments and are NOT recordable:

▼ visits to a doctor or health care professional solely for observation or counseling:

## What do you need to do?

- Within 7 calendar days after you receive information about a case, decide if the case is recordable under the OSHA recordkeeping requirements.
- Determine whether the incident is a new case or a recurrence of an existing
- 3. Establish whether the case was work-

related.

A. If the case is recordable, decide which form you will fill out at the injury and illness incident report.

You may use OSHA's 301: Nyury and Illness incident for an equivalent form. Some state workers compensation, insurance, or other reports may be acceptable substitutes, as long as they provide the same information as the OSHA 301.

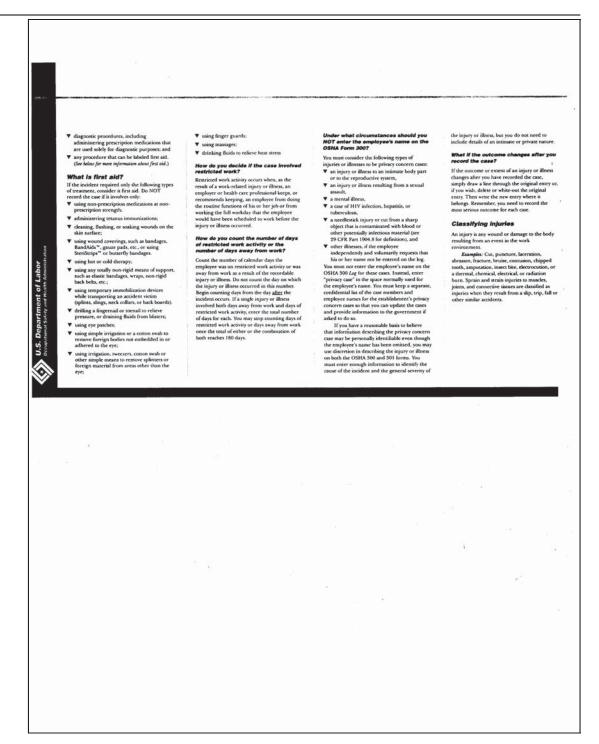

- How to work with the Log

  1. Identify the employee involved unless it is a privacy concern case as described below.
- 2. Identify when and where the case
- 3. Describe the case, as specifically as you
- can.

  4. Classify the seriousness of the case by recording the most serious outcome associated with the case, with column G (Death) being the most serious and column J (Other recordable cases) being the least serious.

  5. Identify shether the case is an injury or illness. If the case is an injury, check the injury category, if the case is an illness, check the appropriate illness category.

	Classifying Illnesses  Skin diseases or disorders Skin diseases or disorders are illnesses involving the worker's skin that see crassed by work exposure to chemicals, plants, or other subtractors Empley: Contact dermainis, ecrema, or rash caused by primary irritants and sensitizers or poisonous plants; oil axer, friction bisters, chrone ulers: inflammation of the skin.  Respiratory conditions are illnesses associated with breathing bazardous blookjot agents, chemicals, daw, gases, vapors, or furnes at work.  Empley ESilossis, abectoris, pneumonis, plasyngits, rhinitis or acute congestion, tarmer's hung, beryllious disease, ulberculosis, occupational authma, reactive airways dysfunction syndrome (RADS), chronic obstructive pulmonary disease (COPED), hypersentitivity preumonists, soci inhalation injury, such as metal fume fever, chronic obstructive procentists, and other pneumoonioses.  Polsoning Toisoning includes disorders evidenced by abnormal concentrations of toxic substances in blood, other issues, other bodily basks or the breath that are caused by the ingestion or absorption of toxic substances into the body.  Examples: Potonning by lead, mercury,	cadmium, arsenis, or other metals; poisoning by carbon monoxide, shurdgen sulfide, or other gases; poisoning by bearene, bearol, carbon terrachloride, or other organic solvents; poisoning by insecticide sprays, such as parathion or led arsenate; poisoning by other chemicals, such as formaldehyde.  **Hearing Loss**  **Noise-induced hearing loss is defined for record-keeping purposes as a change in hearing threshold relative to the baseline audiogram of an average of 10 dB or more in either ear at 2000, 5000 and 4000 herts, and the employee's total hearing level is 25 decibes (dB) or more abone audiometric zero (also averaged at 2000, 5000, and 4000 herts, and the employee's total hearing level is 25 decibes (dB) or more abone audiometric zero (also averaged at 2000, 5000, and 4000 herts) in the same earlo.  **All other Orthogone in the same earlo.**  **All other Cocupational illnesses.  **Eusmples: Heastrock, sunstroke, heat exhaustion, heat stress and other effects of environmental heat, freezing, fronthier, and environmental heat, freezing, fronthier and the environmental heat, freezing, fronth	When must you post the Summary? You must post the Summary only — not the Log — by February 1 of the year following the year covered by the form and keep it posted until April 30 of that year.  How long must you keep the Log and Summary on file? You must keep the Log and Sumsary for 5 years following the year to which they pertain.  Do you have to send these forms to OSHA at the end of the year? No. You do not have to send the completed forms to OSHA unless specifically asked to do so.	How can we help you?  If you have a question about how to fill out the Leg.  visit us online at warm.esha.gov or call your local OSHA office.
